# The 2030 Agenda

## The United Nations' Global Agenda and the Sustainable Development Goals (SDGs):

- 17 Goals
- 169 Targets
- 240+ indicators

## Three principles:

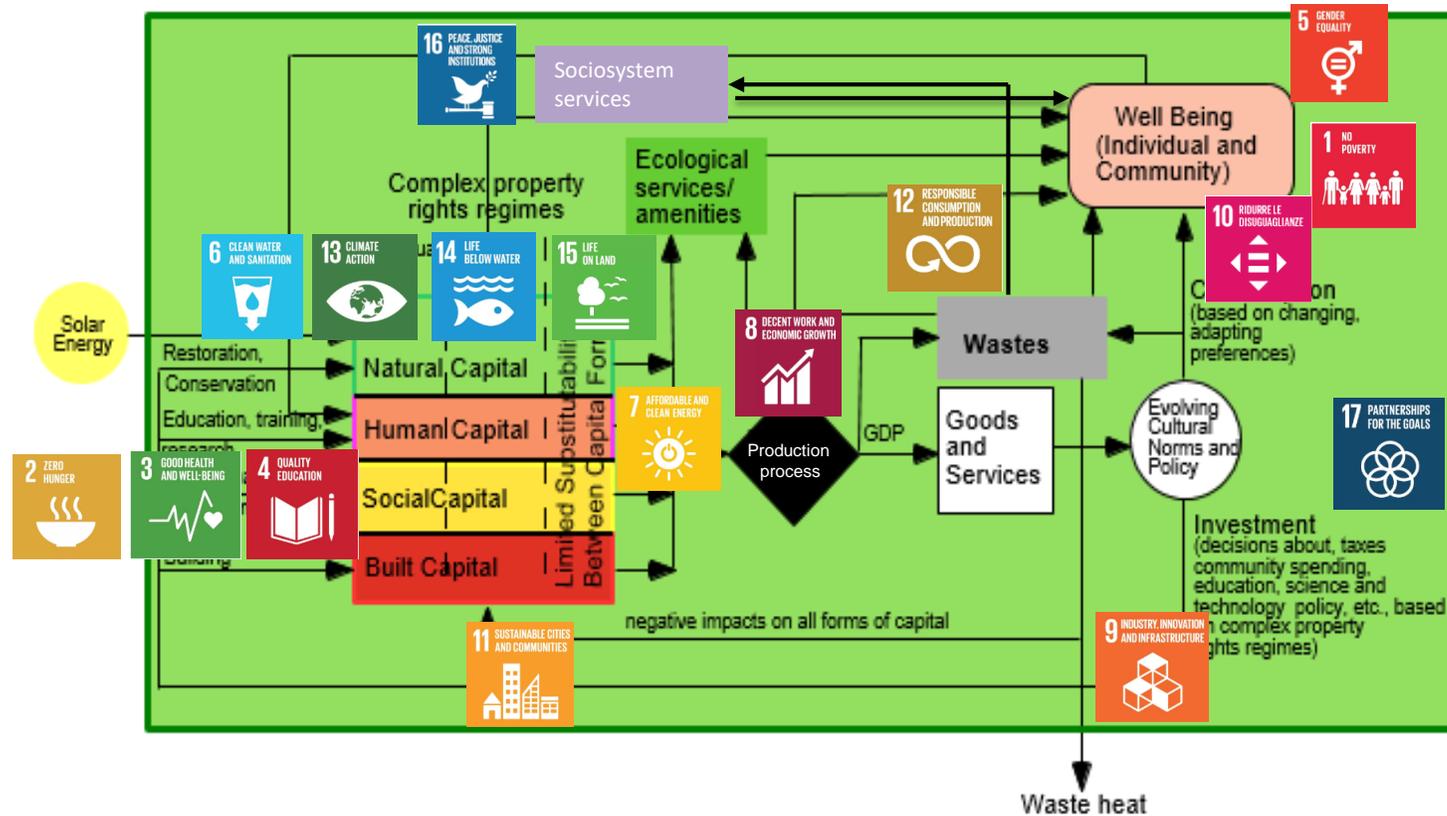

- Integration
- Universality
- Participation

An integrated vision of development, based on four pillars:

- Economy
- Society
- Environment
- Institutions

# A new development paradigm

# A new development paradigm

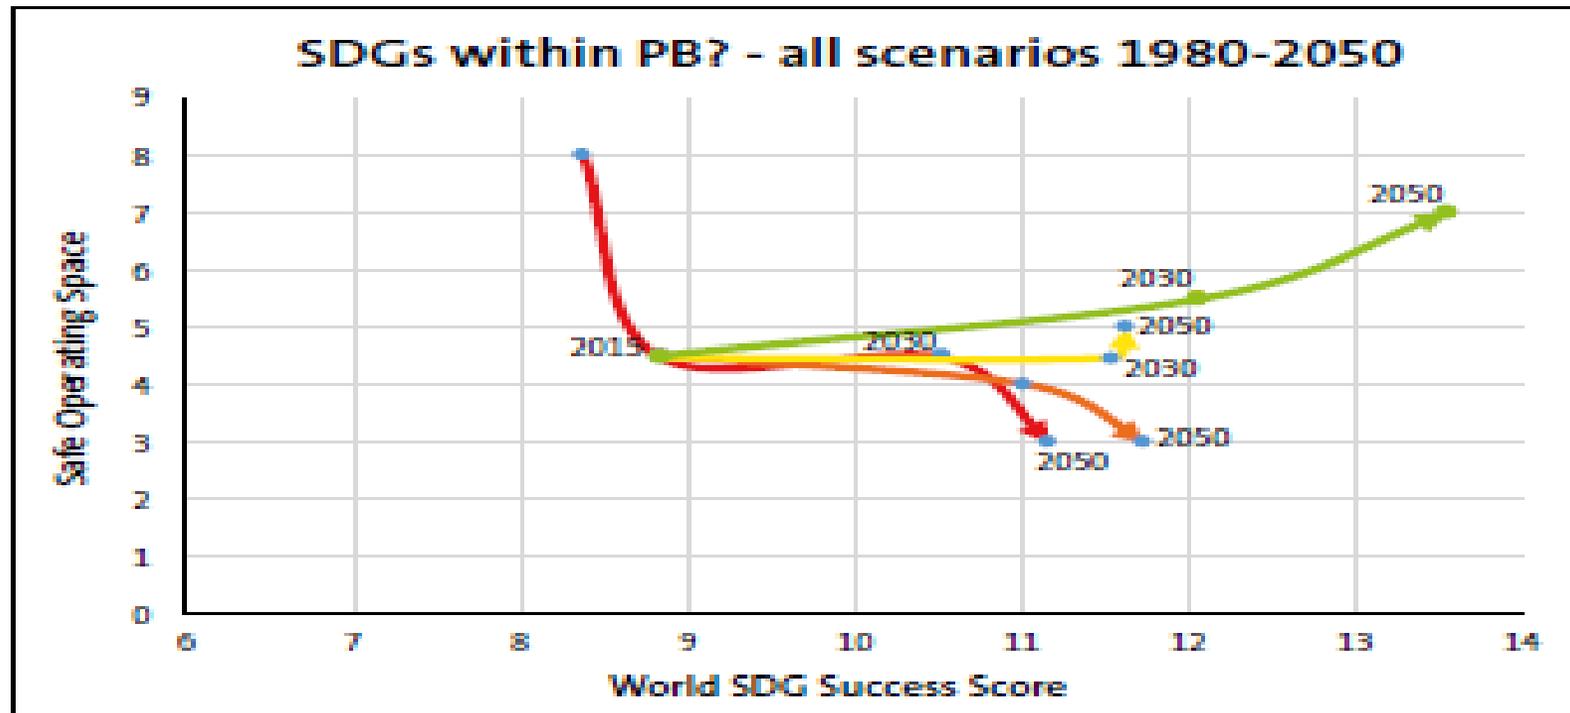

Figure 1.7 Achieving the SDGs within PBs: Only one of the four scenarios achieves the grand challenge of improving the world's SDG Success Score, without eroding Earth's Safety Margin.

## A unique experience worldwide

- **ASviS was established on the 3<sup>rd</sup> of February 2016** with the aim of increasing the awareness of the Italian society about the importance of the 2030 Agenda, and to mobilize them in order to achieve the SDGs.
- It is the largest coalition ever established in Italy, with **more than 230 member organizations**.
- **A secretariat (20FTE), 20 working groups, 600 experts.**
- Daily updated **website**, weekly and monthly **newsletter**.
- **A wide range of activities:** education, advocacy, research, policy recommendations, etc.

## La Legge di Bilancio 2019 e lo sviluppo sostenibile

Esame dei provvedimenti e situazione dell'Italia rispetto ai 17 Obiettivi dell'Agenda 2030

The Report analyses the situation with respect to the 2030 Agenda at the global, EU, Italian and regional levels; for the latter three, it uses detailed statistical analysis for each SDG.

As of 2018, the Report is also available in English.

# ASviS Report "Italy and the SDGs"

The Report is produced by the work of the over 600 experts of the Alliance's member organizations. It puts forward both cross-cutting policy proposals and specific policy proposals using seven multi-SDG areas:

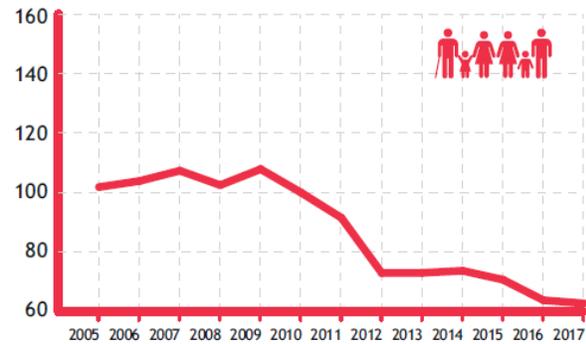

- Climate change and energy
- Poverty and inequalities
- Circular economy, innovation, employment
- Human capital, health and education
- Natural capital and quality of the environment
- Cities, infrastructures and social capital
- International cooperation

# Italy and the SDGs

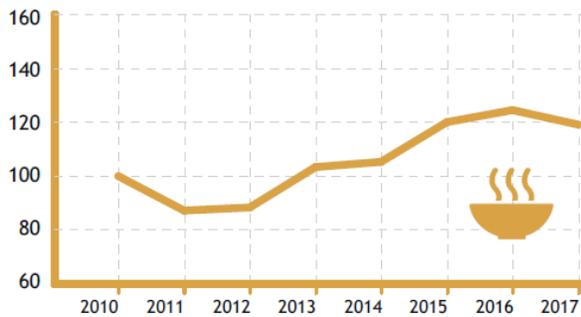

## GOAL 1

End poverty in all its forms everywhere

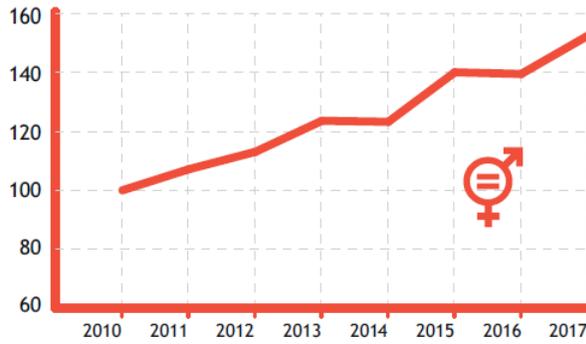

## GOAL 2

End hunger, achieve food security and improved nutrition and promote sustainable agriculture

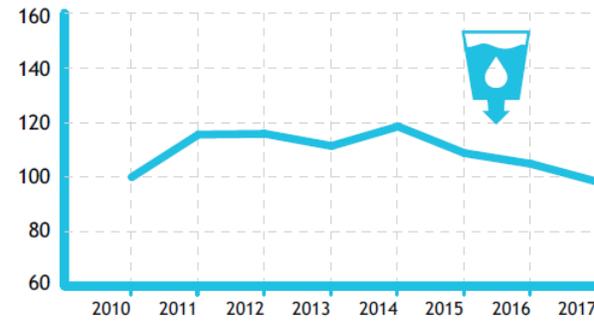

## GOAL 5

Achieve gender equality and empower all women and girls

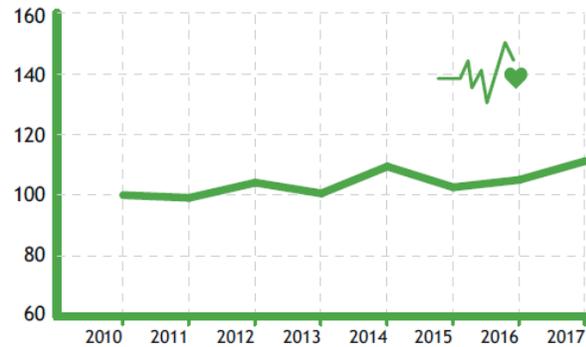

## GOAL 6

Ensure availability and sustainable management of water and sanitation for all

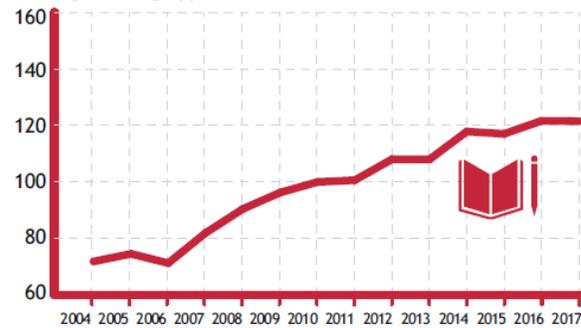

## GOAL 3

Ensure healthy lives and promote well-being for all at all ages

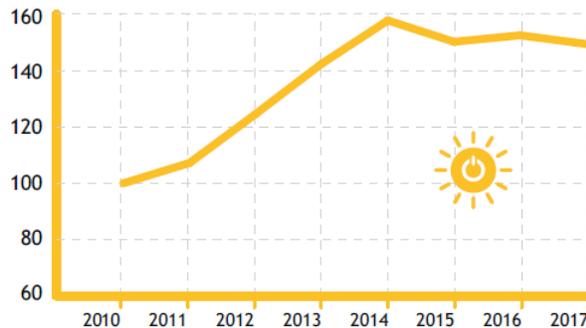

## GOAL 4

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

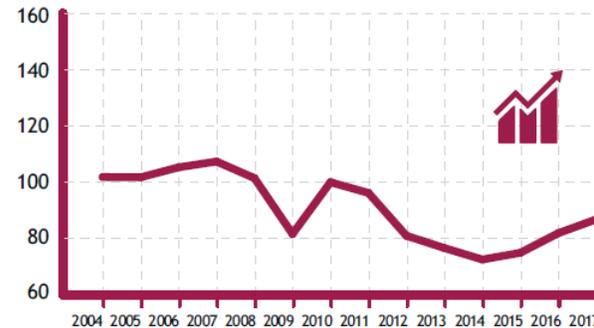

## GOAL 7

Ensure access to affordable, reliable, sustainable and modern energy for all

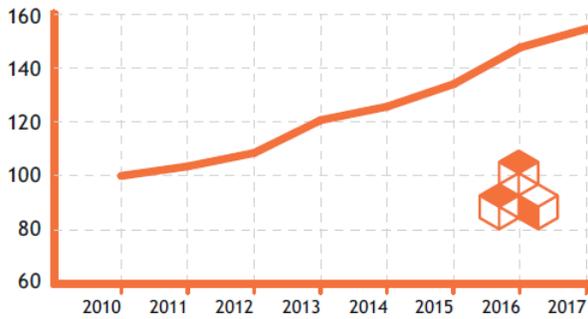

## GOAL 8

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

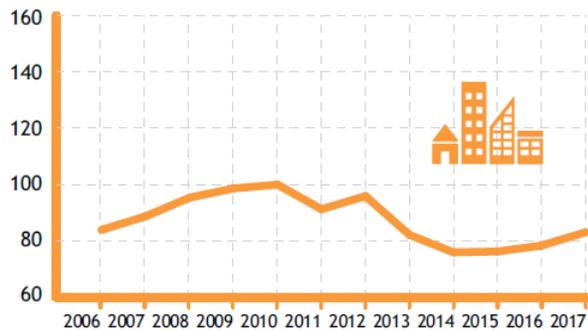

## GOAL 9

Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

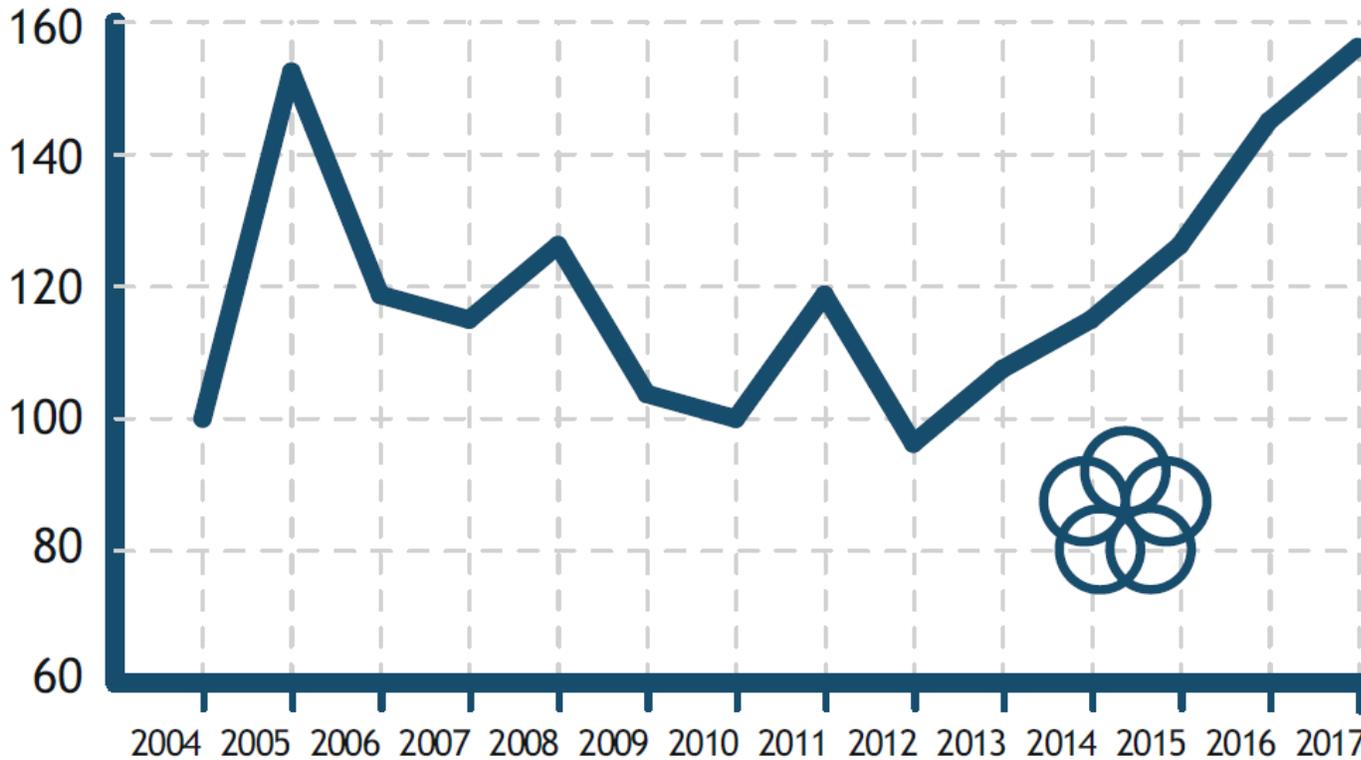

## GOAL 11

Make cities and human settlements inclusive, safe, resilient and sustainable

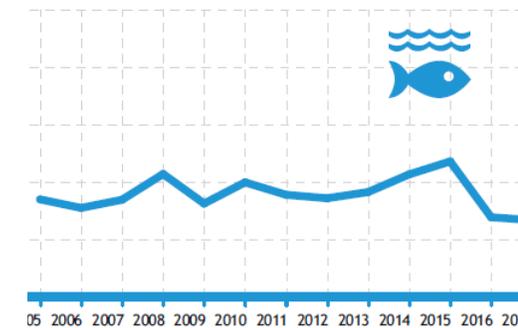

## GOAL 17

Strengthen the means of implementation and revitalize the global partnership for sustainable development

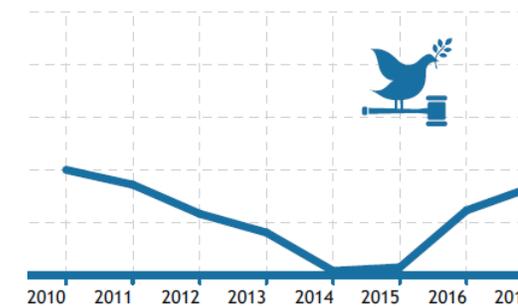

## GOAL 14

Conserve and sustainably use the oceans, seas and marine resources for sustainable development

## GOAL 16

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

# «Transformative» recommendations

Recommendations	Current state
1. Include the principle of sustainable development in the Constitution	Commitment taken by the second Conte government
2. Draft an effective national sustainable development strategy, to be implemented with close coordination by the Cabinet Office	The “Wellbeing Italy” steering committee set up by the first Conte government
3. Promote the establishment of a cross-party group for sustainable development within the future Parliament	Established in the Chamber of Deputies, but not in the Senate
4. Respect the Paris Accords for combating climate change, and ratify the international conventions and protocols already signed by Italy on other issues regarding sustainable development as soon as possible	National Integrated Energy and Climate Plan finalized in December 2019. It does not include the objective of achieving climate neutrality by 2050
5. Convert the Interministerial Committee for Economic Planning into an Interministerial Committee for Sustainable Development, in order to direct public investment for this purpose	Done. The reformed Committee will be operational in 2021

# «Transformative» recommendations

Recommendations	Current state
6. Draft a national strategy to implement an Urban Agenda for sustainable development, and relaunch the Interministerial Committee for Urban Policies	Commitment taken by the second Conte government
7. Establish a permanent body within the Cabinet Office to consult with civil society on gender equality policies	Not established, but the second Conte government has a minister responsible for equal opportunities
8. Involve the central and local government in the coordination of sustainable development actions within the sphere of responsibility of the state, the regions and cities	Calls for tender issued by the Ministry for the Environment to encourage regions, autonomous provinces and metropolitan cities to prepare their own sustainable development strategies
9. Boost official development assistance (ODA) to achieve the goal of 0.7% of Gross National Income by 2025, in line with Italy's commitments to the United Nations	No commitments up to 2025 and reduction in ODA in 2018
10. Ensure that the European Union puts its commitment to implementing the 2030 Agenda at the heart of its new medium-term strategy	European institutions have put the 2030 Agenda at the heart of their strategies for the coming years

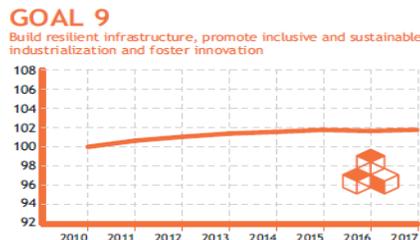

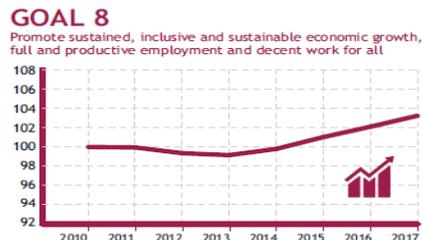

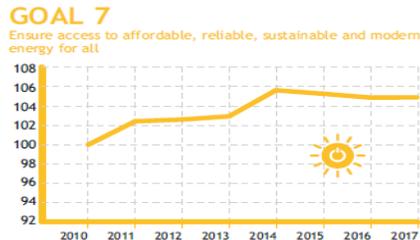

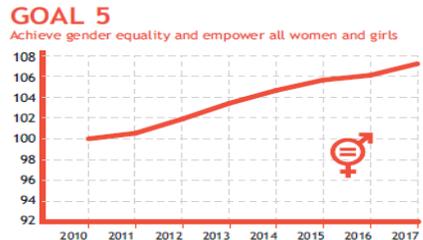

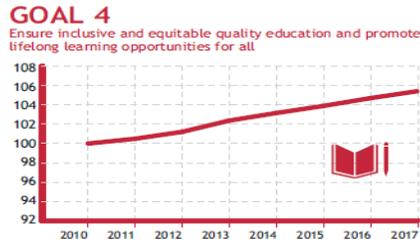

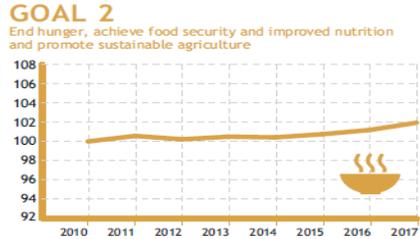

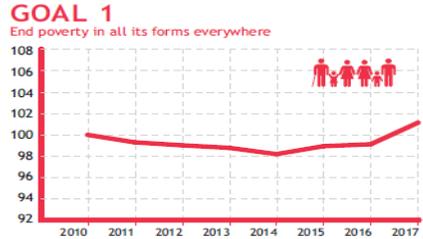

# International cooperation

- Urgently revise the Three-year Development Cooperation Policy Planning and Guidance Document and convene meetings of the Interministerial Committee for Development Cooperation and the National Council for Development Cooperation.
- Strengthen partnerships with the third sector, NGOs, businesses and social partners.
- Encourage and regulate fair trade, approving the law that is currently under discussion in the Parliament.
- Adopt the European Directive on unfair trading practices between agricultural and food businesses.
- Regularly gather data on the volume of fair trade conducted as a proportion of imports from developing countries.

# The EU and the SDGs

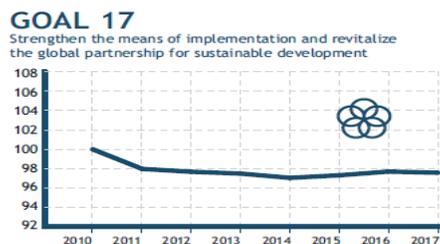

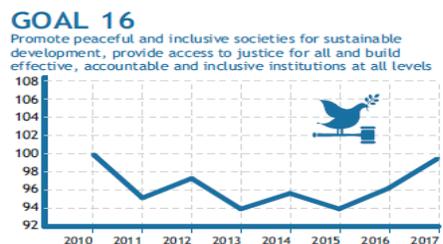

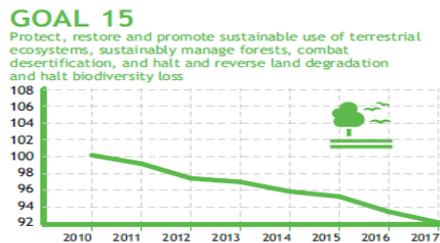

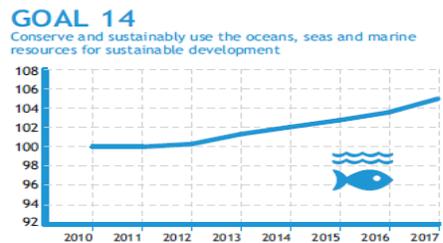

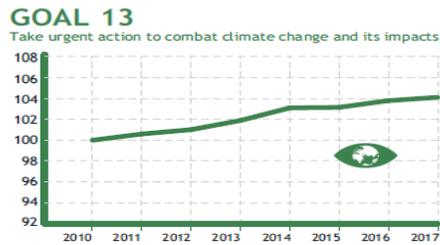

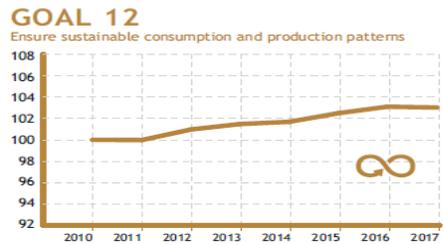

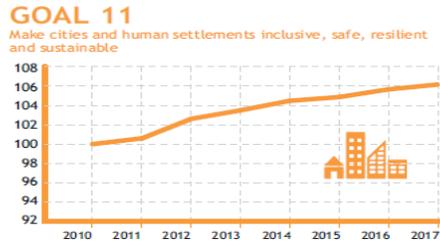

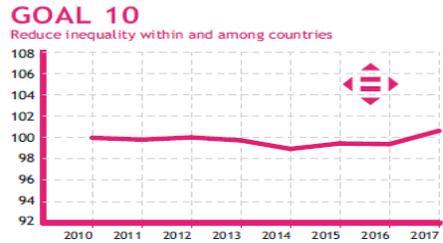

- Between 2010 and 2017:
  - Nine Goals out of 17 improve (3, 4, 5, 7, 8, 11, 12, 13 e 14);
  - Two worsen (15 e 17);
  - For five (1, 2, 9, 10 e 16) the situation remains unchanged.
- Between 2016 and 2017:
  - Improvements for ten Goals (1, 2, 3, 4, 5, 8, 10, 11, 14 e 16);
  - Stability for five (7, 9, 12, 13 e 17);
  - A deterioration in one case (15).

For Goal 6 it was impossible to calculate a composite index

# The EU and the SDGs

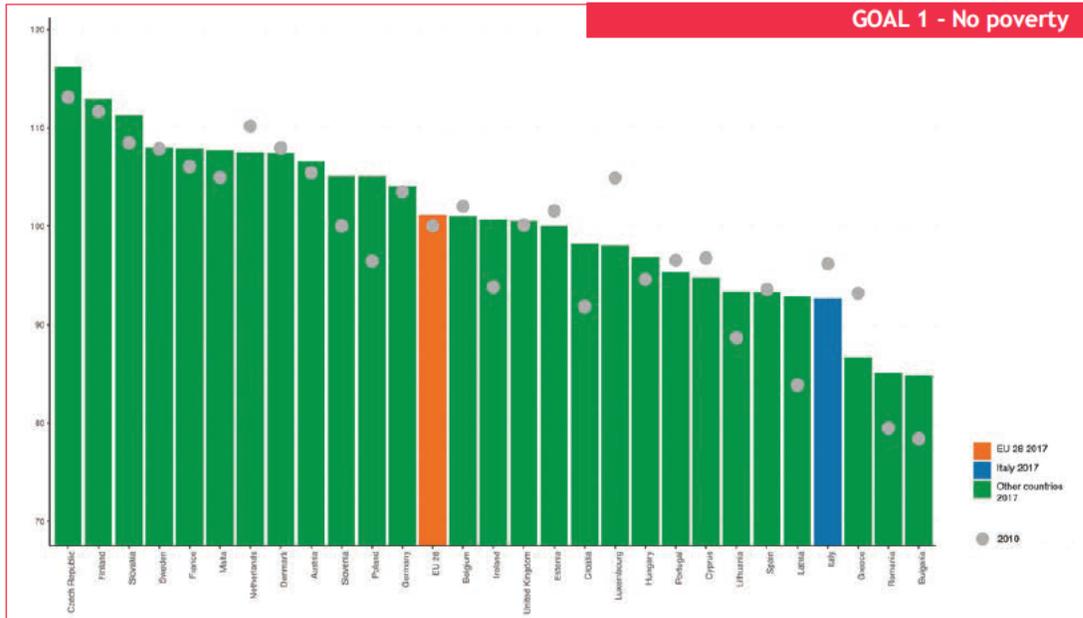

- Between 2010 and 2017:
  - Nine Goals out of 17 improve (3, 4, 5, 7, 8, 11, 12, 13 e 14);
  - Two worsen (15 e 17);
  - For five (1, 2, 9, 10 e 16) the situation remains unchanged.
- Between 2016 and 2017:
  - Improvements for ten Goals (1, 2, 3, 4, 5, 8, 10, 11, 14 e 16);
  - Stability for five (7, 9, 12, 13 e 17);
  - A deterioration in one case (15).

For Goal 6 it was impossible to calculate a composite index

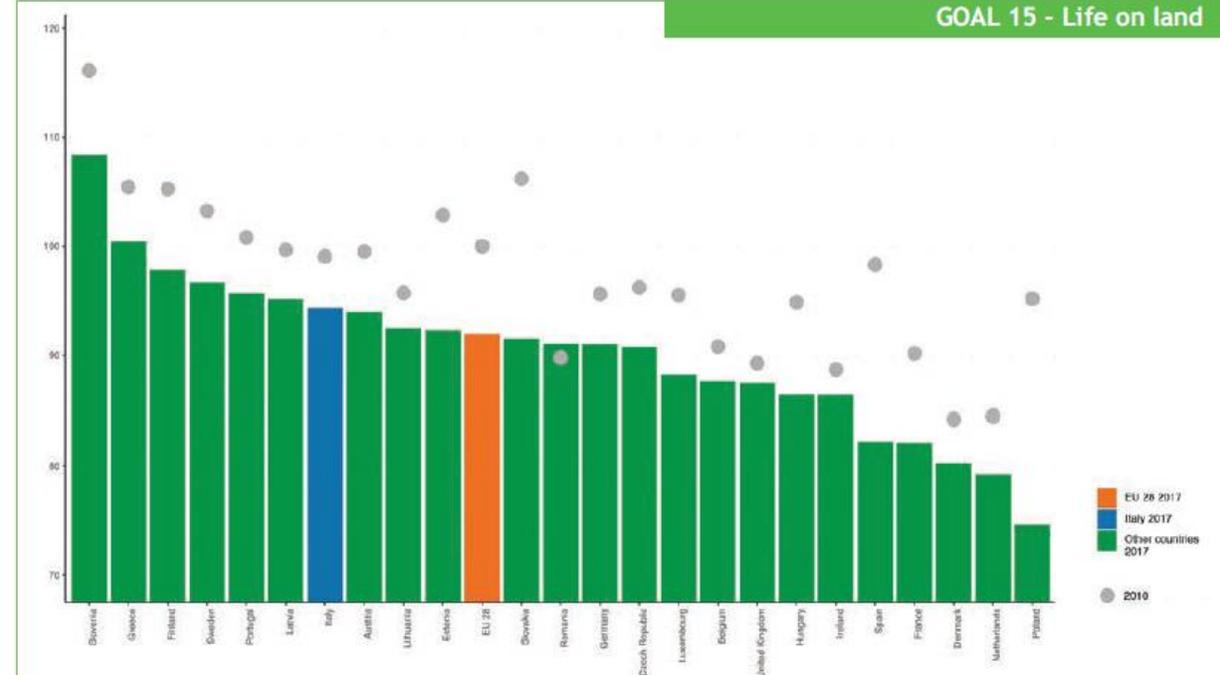

# Large inequalities among EU countries

The chart highlights substantial gaps between country performances with respect to Goal 1. There is a 31.4 point difference between the composite indicator value for the best performer (Czech Republic) and that of the country at the bottom of the ranking (Bulgaria). Italy ranks twenty-fourth, ahead of Greece, Romania and Bulgaria. Between 2010 and

2017, individual country trends differ considerably. In terms of “influence”, there is a degree of homogeneity between the considered indicators, with the share of the *Population living in dwellings with a leaking roof, damp walls, floors or foundation or rot in window frames* and of *People at risk of income poverty after social transfers* being the most relevant.

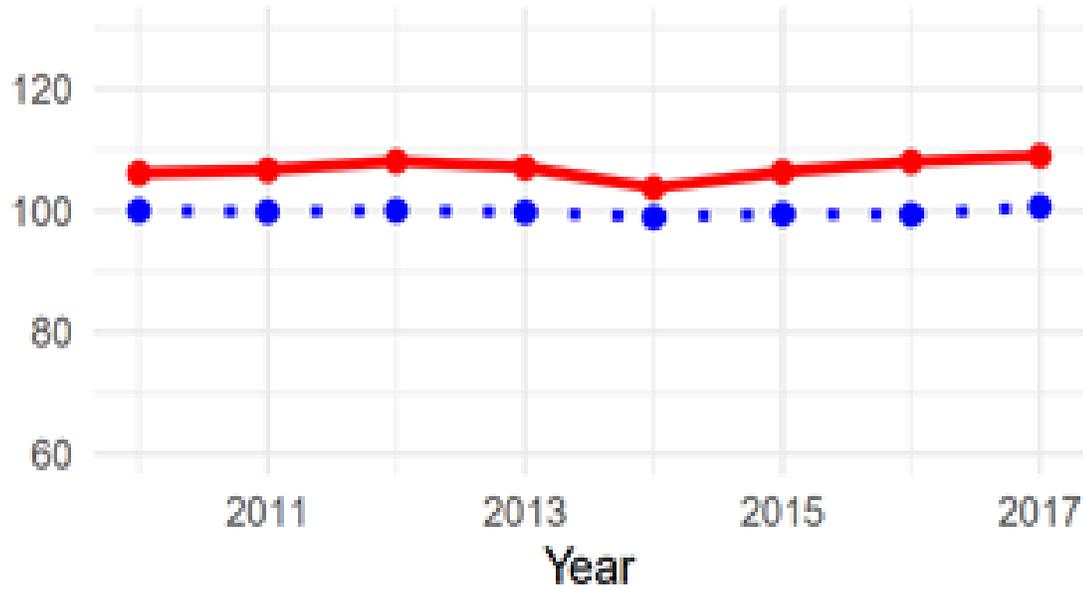

For Goal 15, Slovenia leads the ranking, with a composite indicator that is 33.7 points greater than Poland, the lowest ranked country. Italy is above the European average, but all countries, except for Romania, register a significant deterioration between 2010 and 2017.

The indicators relating to the *Soil sealing index* and the *Share of forest area* have the greatest impact on country ranking.

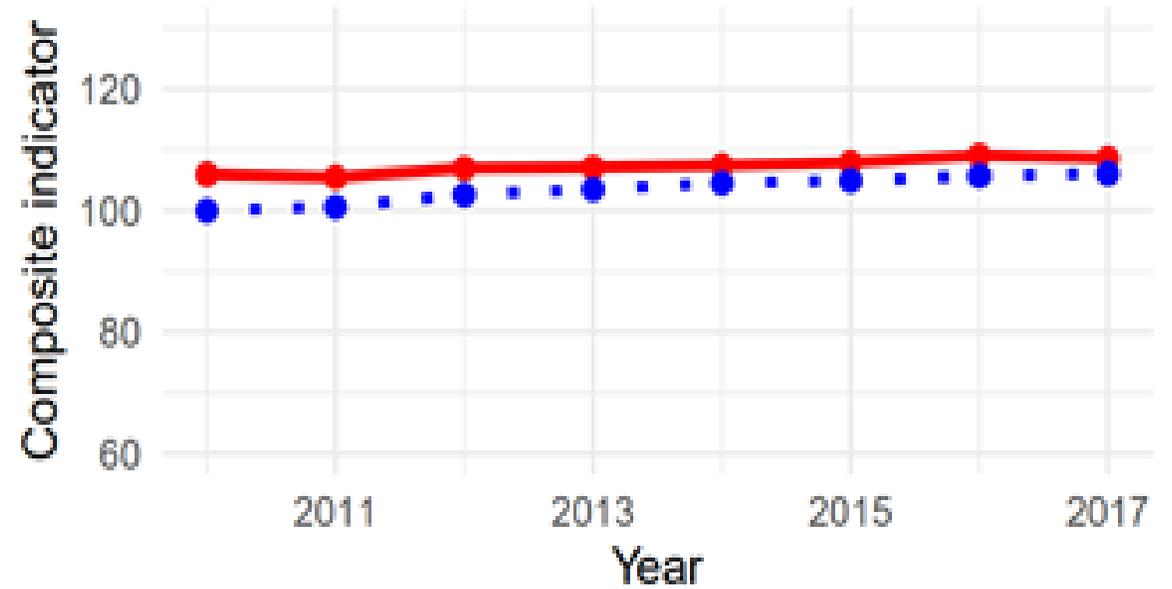

# Single country analysis over time

## Goal 10

COUNTRY ● EU 28 ● Germany

## Goal 11

COUNTRY ● EU 28 ● Germany

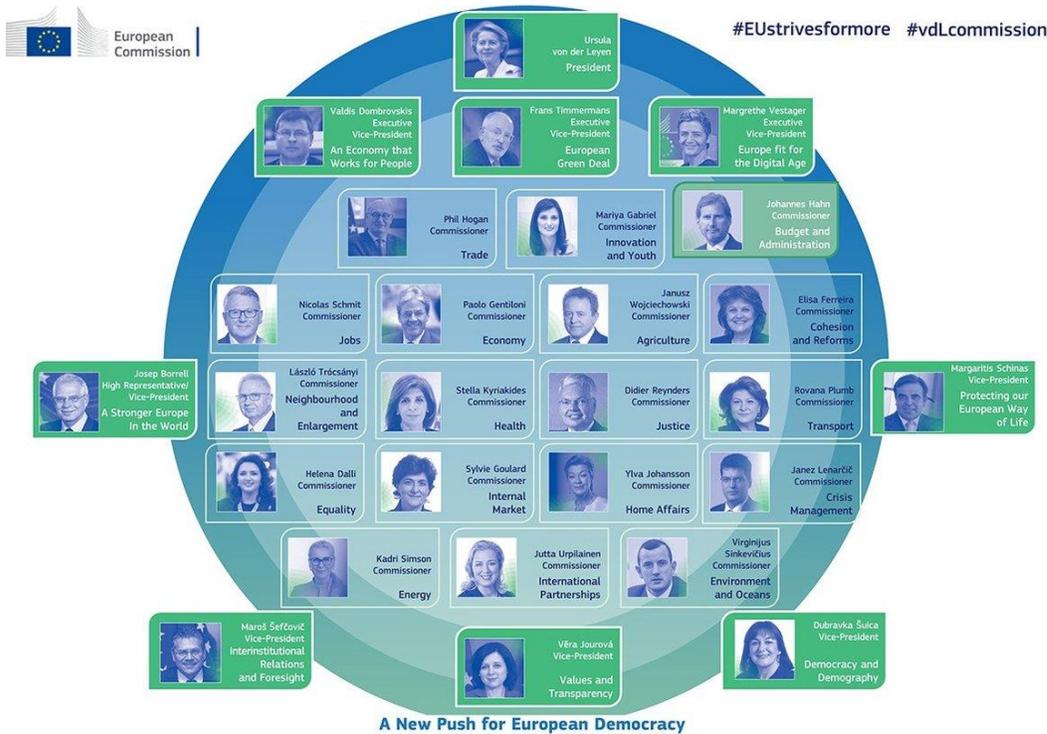

# The Lisbon Treaty

1. The Union's aim is to **promote peace, its values and the well-being of its peoples.**  
2. The Union shall offer its citizens **an area of freedom, security and justice without internal frontiers...** 
3. The Union shall establish an internal market. **It shall work for the sustainable development of Europe based on balanced economic growth and price stability, a highly competitive social market economy, aiming at full employment and social progress, and a high level of protection and improvement of the quality of the environment.** It shall promote scientific and technological advance. **It shall combat social exclusion and discrimination, and shall promote social justice and protection, equality between women and men, solidarity between generations and protection of the rights of the child.** **It shall promote economic, social and territorial cohesion, and solidarity among Member States.** It shall respect its rich cultural and linguistic diversity, and shall ensure that Europe's cultural heritage is safeguarded and enhanced.             
4. **...It shall contribute to peace, security, the sustainable development of the Earth,** solidarity and mutual respect among peoples, free and fair trade, eradication of poverty and the protection of human rights, in particular the rights of the child, as well as to the strict observance and the development of international law, including respect for the principles of the United Nations Charter. 

# The new EU priorities

The new European Commission put the 2030 Agenda for sustainable development at the core of its political five-year programme.

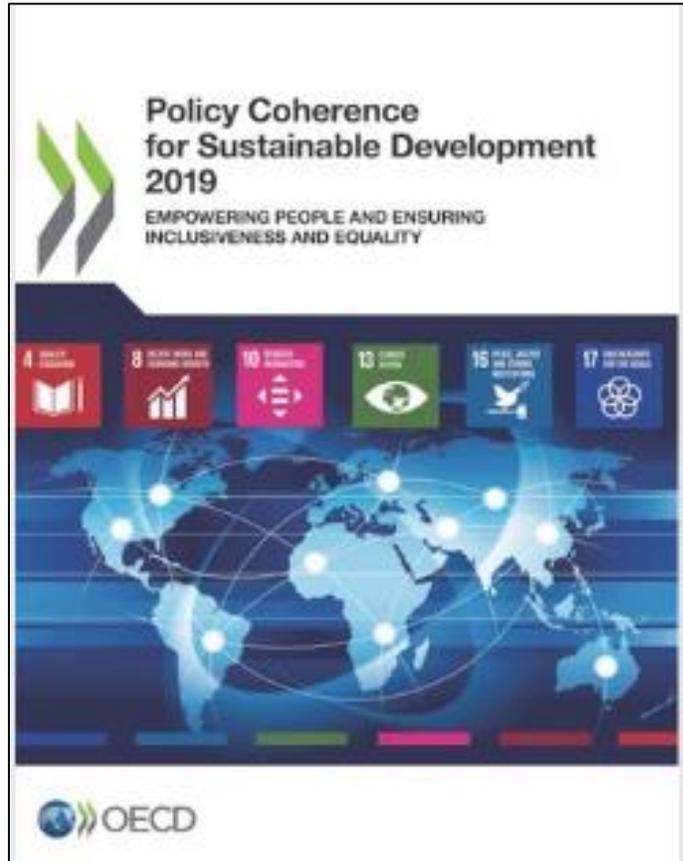

All the Vice-Presidents and the Commissioners have been mandated to achieve the SDGs in their own field of competence.

The Commission as a whole is committed to make the Union able to achieve all of them.

The European Semester has to be based on the 2030 Agenda.

# A big challenge: policy coherence

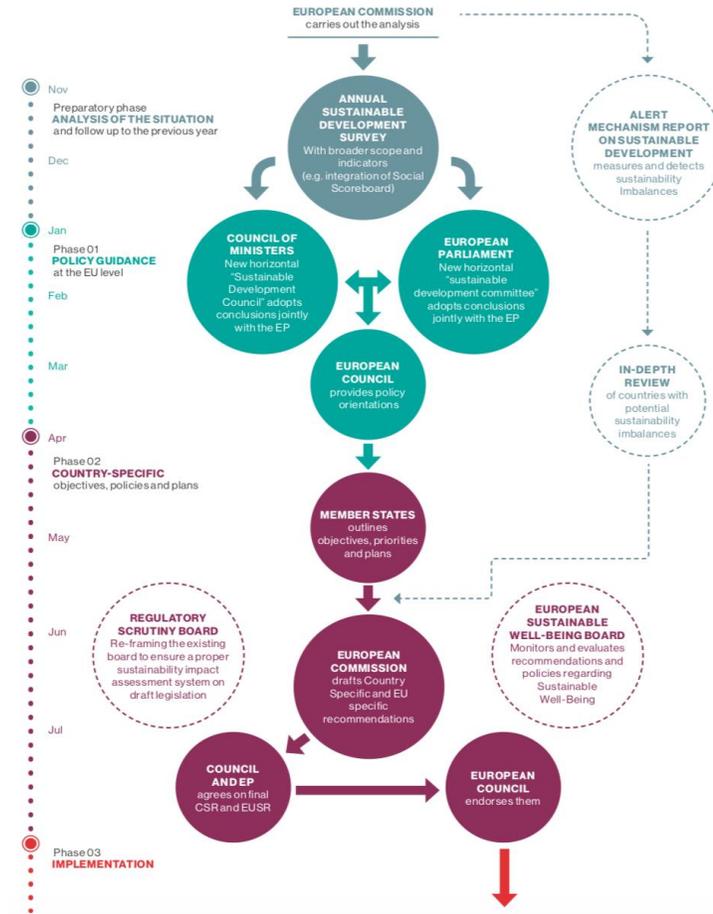

# The new European Semester

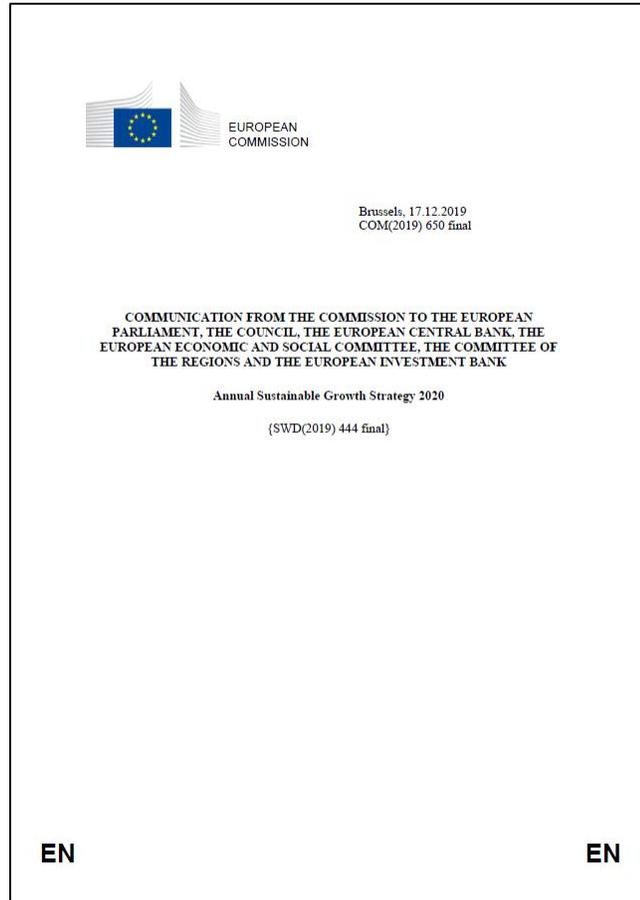

## Sustainable Equality

Report of the Independent Commission for Sustainable Equality | 2019-2024

## SUSTAINABLE SEMESTER PROCESS (Annual)

The refocusing of the European Semester has already started through the broader economic narrative put forward in this **Annual Sustainable Growth Strategy**.

It will continue with the 2020 country reports, the Commission's analysis of the Member States' social and economic situation. As a first step, the 2020 reports will feature a reinforced analysis and monitoring on the SDGs. They will include a new dedicated section focusing on environmental sustainability will be added to complement the analysis on economic and social challenges. In addition to this new section, each country report will also include a new annex setting out the individual Member States' SDG performance.

- First edition in 2017
